

CODTECH IT SOLUTIONS PVT. LTD.

MERN Stack Web Development Internship — Project Submission

Candidate Name:	Yug Thakral
Selected For:	Mern Stack Web Development
Organization:	Codtech IT Solutions Private Limited
Duration:	6 Weeks
Internship Period:	03 June 2026 - 15 July 2026
Intern ID:	CITS3144

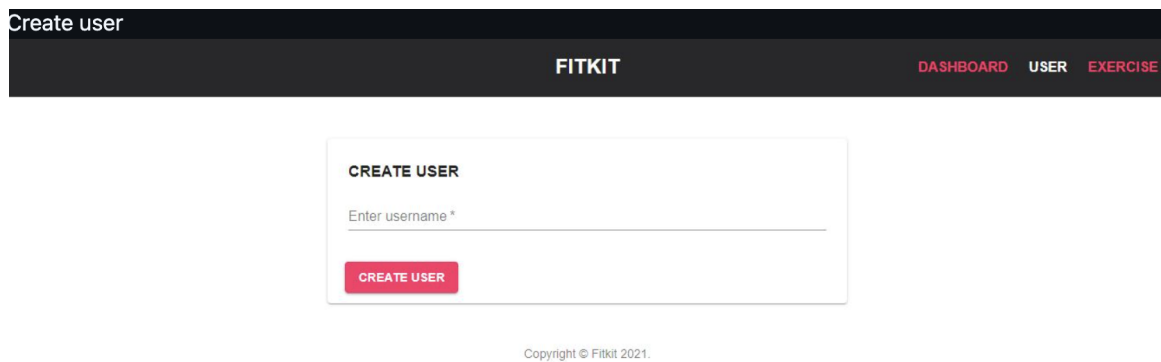

As part of this internship, the following screenshots document the MERN stack web application — **"FitKit"**, a full-stack fitness activity tracking application — built and completed during the internship period.

1. Homepage — Landing Page

Screenshot of the "FitKit" homepage, featuring the app banner with the tagline "Stay Fit With Us" and a "Record Activity" call-to-action button that lets users jump straight into logging a workout.

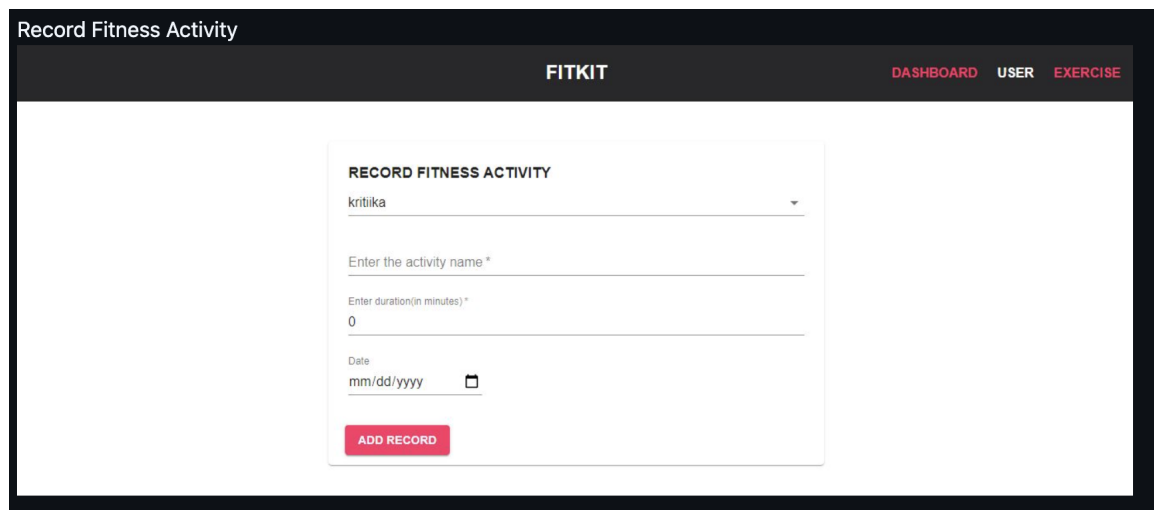

2. Create User

The screenshot shows the 'Create user' page of the FITKIT application. The page has a dark header with the title 'Create user' on the left, the 'FITKIT' logo in the center, and navigation links 'DASHBOARD', 'USER', and 'EXERCISE' on the right. The main content area contains a white box titled 'CREATE USER'. Inside this box, there is a text input field labeled 'Enter username *' and a red button labeled 'CREATE USER'. Below the form, the text 'Copyright © Fitkit 2021.' is displayed.

Screenshot of the Create User page, where a new user can be registered in the system by entering a username before recording any fitness activity.

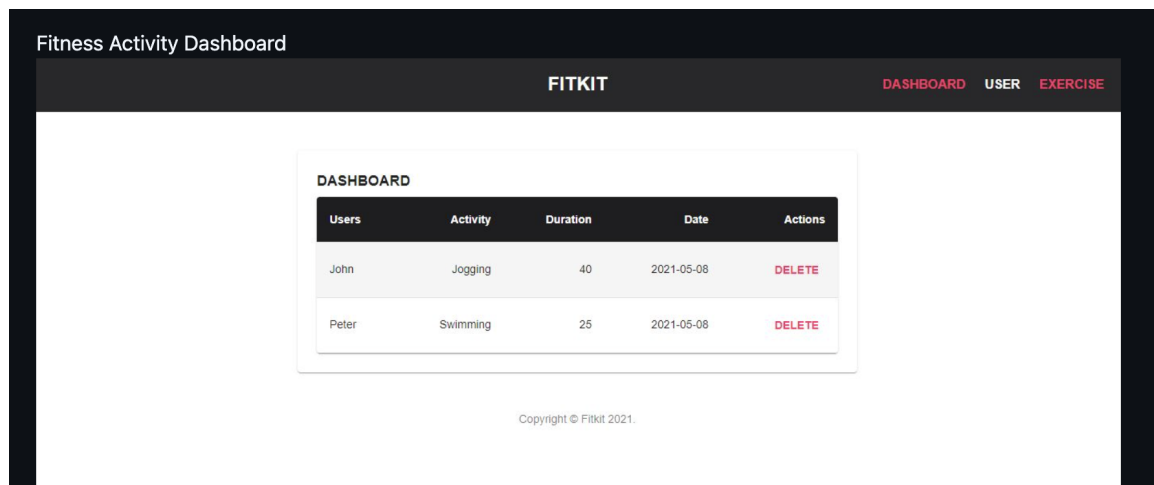

3. Record Fitness Activity

The screenshot shows the 'Record Fitness Activity' page of the FITKIT application. The page has a dark header with the title 'Record Fitness Activity' on the left, the 'FITKIT' logo in the center, and navigation links 'DASHBOARD', 'USER', and 'EXERCISE' on the right. The main content area contains a white box titled 'RECORD FITNESS ACTIVITY'. Inside this box, there is a dropdown menu with 'kritiika' selected, a text input field labeled 'Enter the activity name *', a text input field labeled 'Enter duration(in minutes) *' with the value '0', and a date input field labeled 'Date' with the format 'mm/dd/yyyy' and a calendar icon. A red button labeled 'ADD RECORD' is at the bottom of the form.

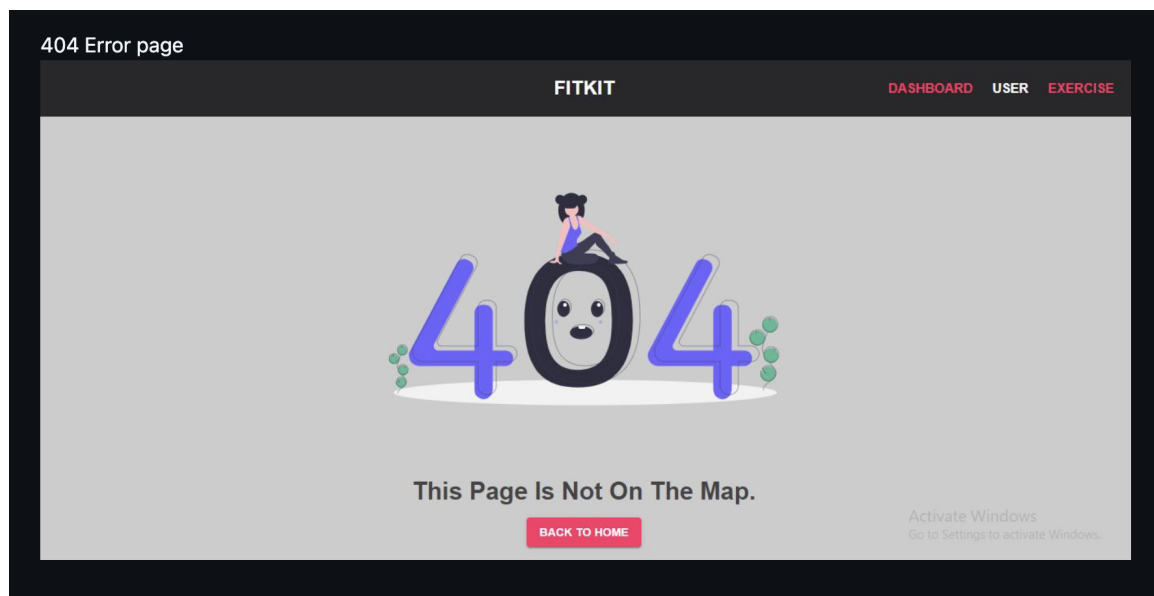

Screenshot of the Record Fitness Activity form, allowing a registered user to select their profile and log an activity name, duration in minutes, and date.

4. Fitness Activity Dashboard

Screenshot of the Dashboard, listing all recorded activities across users with their activity type, duration, and date, along with a Delete action for each entry.

5. 404 Error Page

Screenshot of the custom 404 error page, shown when a user navigates to a route that does not exist, with a "Back To Home" button to return to the application.
